Duration: 10min

Discussion Summary

Agenda: Refinement of the Farmer Page functionality to introduce logic, sanity, and some long-overdue limits on product quantities.

Requested Changes

1. Quantity Limitation on Products

   - Farmers are no longer allowed to list crops which have certain quantity thresholds.

   - A maximum quantity limit will be enforced when entering product details

   - improve the location fetching based on nearby farmer.

   - Improve the flow and ui
